# NAFLA DIVA SYAFIA

nafladiva@gmail.com | +6281219500968 | https://nafladiva.github.io/

## PROFILE

Mobile Developer specializing in Flutter, with 3 years of experience building and releasing cross-platform apps for Android, iOS, Huawei, and the web, including hands-on CI/CD experience. Strong communicator and team player, always eager to learn new things.

## SKILLS

**Languages**: Dart, Java, Kotlin, Swift, JavaScript, HTML, CSS, Python

**Frameworks & Libraries**: Flutter, Bloc, Cubit, GetX, Provider, Node.js

**Testing**: Unit Testing, Widget Testing, Bloc Testing, Integration Testing

**Cloud, DevOps & Tools:** Azure DevOps (CI/CD), Azure Cosmos DB, Git, Google Play Console, App Store Connect

**Other**: RESTful API, Figma, UI/UX

## EDUCATION

- **Syiah Kuala University | Aceh, Indonesia** **Sep 2018 – May 2023**
  *Bachelor of Informatika (S1) | GPA: 3.69*

## WORK EXPERIENCES

- **Mobile Developer (Flutter) | Home Credit Indonesia** **Feb 2024 - Present**
  *Permanent*
  - Develop and maintain cross-platform applications in Flutter for Android, iOS, and Huawei using Bloc and Cubit for state management, and write unit and integration tests
  - Develop a Flutter Web application integrated with shared modules from the mobile project
  - Integrate RESTful APIs in collaboration with the backend team, handling request/response models, error states, and edge cases so every user flow runs smoothly
  - Work with Product Owners and UI/UX designers to turn requirements and designs into accurate, polished interfaces, and flag unclear or missing requirements before development starts
  - Manage CI/CD in Azure DevOps Pipelines for mobile and web
  - Debug and troubleshoot issues to identify and resolve software defects, ensuring application stability
  - Collaborate with international teams across time zones on feature development, aligning on requirements and release timelines to deliver features consistently
- **Mobile Application Engineer | Bryte Indonesia** **May 2023 - Jun 2023**
  *Contract*
  - Developed and maintained cross-platform mobile applications using the Flutter framework for iOS and Android platforms
  - Assisted in refactoring code to improve code readability and maintainability
  - Participated on debugging and troubleshooting to identify and resolve bugs in mobile application
  - Assisted in managing mobile applications in Google Play Console for Android and App Store Connect for iOS
  - Collaborated with backend team and product team to discuss and develop product features
- **Flutter Engineer | Dealls** **Aug 2022 – Nov 2022**
  *Internship*
  - Develop Flutter mobile application based on Product Requirements Document (PRD) and UI design provided by UI Design team
  - Participated on analyzing, debugging and troubleshooting to identify and resolve software defects

- Assisted in code reviews to maintain code quality and adherence to best practices
- Collaborated with backend and product team to discuss more about application functionality to achieve the expected goals

- **Frontend Developer Intern | LingoTalk** **Jul 2021 – Feb 2022**
  *Internship*
  - Developed responsive and user-friendly web applications using Svelte and Sapper
  - Integrated RESTful APIs and third-party libraries to enhance website functionality and user interaction
  - Collaborated with frontend team, backend team, and product team to implement ideas into the development to achieve the expected goals

## ORGANIZATION & VOLUNTEER

- **Generasi Baru Indonesia (GenBI) Aceh | Bank Indonesia** **Apr 2021 – May 2022**
  *Member of Environmental department*
  - Participated on various community empowerment activities for a better Indonesia
  - In charge of documentation in activities that held by GenBI USK (Universitas Syiah Kuala)

## ACHIEVEMENTS

- Completed *Menjadi iOS Developer Expert* Course, Dicoding Indonesia (2024)
- Completed *Menjadi Flutter Developer Expert* Course, Dicoding Indonesia (2021)
- Best Graduate on Multi-Platform App Developer Learning Path (Flutter) in IDCamp 2021, Indosat Ooredoo Hutchison
- Participated and completed #JuaraAndroid program that held by Google Developer Group Jakarta (2022)
- Bank Indonesia's Scholarship Awardee 2021

## PROJECTS

- **SIMATA Mobile**
  - SIMATA is a thesis management app for Fakultas MIPA, Universitas Syiah Kuala. This app is adapted from its website
  - Made using Flutter clean architecture for its code structure, API for connecting to the database, Firebase Cloud Messaging for push notification, and Bloc for state management
  - Developed with refactoring method, all of functionalities from its website is implemented to the app
- **StockWell**
  - A mobile app that helps users properly store food through step-by-step guidance
  - Integrated with Gemini AI to detect food items from images and generate its storage instructions
  - Implemented shelf-life tracking and notification reminders to reduce food waste
  - Developed for Gemini API Developer Competition, 2024
  - Demo video link: https://www.youtube.com/watch?v=BwnXEvk9EVo
- **Podipu**
  - A Podcast Mobile App, where you can listen to a variety of the best podcasts, explore podcasts by genres, save podcasts you want to listen to later, and much more
  - Podipu was built with Flutter, Bloc, Hive and powered by ListenNotes API for all podcast data
  - Link Github: https://github.com/nafladiva/podipu

## ADDITIONAL SKILLS

- **Language** : Indonesia (*Native*), English (*Proficient*)
- **Microsoft Office**: Proficient in Microsoft Word, Excel and PowerPoint
- **Design:** Proficient in Figma, Adobe XD and Adobe Photoshop
